There Are No Absolutes.
Perspective Determines How Everything Is Understood.
Many Possible Perspectives Exist at Every Scale.
From Micro to Macro, Scales Are Infinite.
What We "Know" Is What Our Perspectives Give Us.

Perspectives at All Scales
Rest on Assumptions.
Assumptions Are Built Into the Fabric of Mentation.
Perspectives and Assumptions Are Rarely Examined.

Judgments
Of What Is Right and Wrong, Good and Bad
Reflect Different Perspectives
At Different Scales
At Different Times
In Different Circumstances
By Different Individuals or Groups.

Broad Agreement in Perspective
Among Most Group Members
Across Most Circumstances
At Most Scales
Is CULTURE.

Agreement Confirms Perspective/Paradigm/Worldview,
But, Confirmed P/P/W
Is Not Truth.

Truth Is an Unattainable Ideal,
But, Pursuing the Ideal Keeps Change Before Us,
And Change Is All There Is.

Change Stimulates Discovery,
Discovery Brings Growth,
Growth Encourages Perspective Flexibility,
Flexibility Allows Perspective Adjustment,
Adjustment Can Challenge Fundamental Assumptions.
